

# Certification of Environmental Claims

**The Bishop Materials Laboratory  
A Component of Clemson University**

## **Company**

*Endicott Clay Products Company*

## **Location**

*Fairbury, NE*

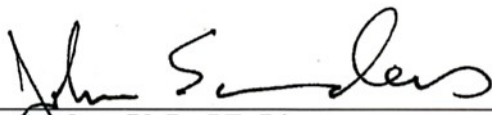

## **Certification Period**

*June 2014 - June 2015*

## **Certification Number**

*686-006-5*

Recognizing a commitment to preserving and improving the environment, the named Company has achieved this independent third-party certification of the recycled content and/or its use of renewable energy sources for its products per the attached description. This certification was awarded in concert with guidelines in the USGBC's LEED™ Green Building Rating System, NAHB's Model Green Home Building Guidelines, and the ICC 700-2008 National Green Building Standard, in consideration of ISO 14021 Environmental Labels and Declarations, and according to the Policy on Certifying Brick as an Environmentally Preferable Product of the Brick Industry Association. This certification is subject to an annual renewal based on an audit of the Company's environmental practices.

**COMPANY INFORMATION**

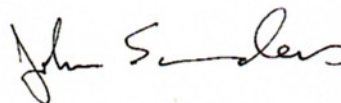

Name: Endicott Clay Products Company  
PO Box 17, Country Lane  
Fairbury, NE 68352

Plant: Endicott Clay Products Company  
57120 707 Road  
Endicott, NE 68350

Blend	Recycled Content (by weight percent)	
	Pre-Consumer	Post-Consumer
Adobe Sands	18.0%	0.0%
Almond	18.0%	0.0%
Antique #4000 D	18.0%	0.0%
Antique #752	18.0%	0.0%
Autumn Sands	18.0%	0.0%
Bourdeaux Blend	17.5%	0.0%
Buckskin	17.5%	0.0%
Buff Blend	18.0%	0.0%
Burgundy Blend	18.0%	0.0%
Burgundy Sands	18.0%	0.0%
Copper Sands	18.0%	0.0%
Coppertone	18.0%	0.0%
Copper Canyon	18.0%	0.0%
Dark Ironspot	18.0%	0.0%
Dark Sandstone	17.5%	0.0%

The recycled content was determined based on the guidelines in the LEED™ Green Building Rating System, in consideration of ISO 14021 Environmental Labels and Declarations, and according to the Policy on Certifying Brick as an Environmentally Preferable Product of the Brick Industry Association. These results are the culmination of data supplied by the manufacturer, a BML technical review and Plant site Audit. This certification is subject to an annual renewal based on an audit of the Company's environmental practices. This certification was prepared under the service testing function of the Bishop Materials Laboratory, and it solely represents the professional opinion and practice of the undersigned.
